General and Revenue Secretariat No. Fde File No. 102 of 1934. [App. F. III—2

Serial No.

From the Director of Fde
Letter No D. 76/34-35 dt. 21-11-34

With reference to the last para of G.O. dt. 17.8.34, calling for detailed proposals for the development of Pharmaceutical wk of the Industrial & Testing Laboratory Surgeon Lt Col 1) an additional equipment of Rs 12000 for preparing new & specialities dept,
2) A special grant of Rs 3,000 for experimental wk to undertake new preparations and
3) that the two rooms on either side of the Store Room of the Laboratory (in possession of the Govt dept) may be handed over to the Laboratory.

The details of the additional Equipment of Rs 12,000 have been furnished by the Superintendent of the Laboratory (Flag S)

As regards the special grant of Rs 3,000 it is stated that this sum is required for two years to investigate the possibilities of manufacturing new preparations No staff is proposed to be employed

and it is stated that this sum will be met from the Revenue funds of the Soap Factory.

(2) As regards the issue to meet the additional equipment of Rs 12,000 the District requests for an additional grant & he says that this is in addition to the equipment of the value of Rs 5975 sanctioned in the G.O dy 16.6.34. The District having requested for the grant of an additional Capital grant to meet the cost of Rs 5975 already sanctioned, he was asked to meet the expenditure from the Capital grant of Rs 20 000 made for the year 1934-35 & to apply for an additional grant later, if funds are required under this head or re appropriation from other heads is not found possible. The present request for an additional grant of Rs 12,000 is in order.

(3) The next (third) point is that the two rooms adjoining the Stores room of the Laboratory may be handed over to the Laboratory & that the Chief Conservator of Forests may be

L

Revised draft for appl. Dy. Secy. 21/3

5700 21/3

H 2031 Dy 22.3.35

Mr. 22-3. 22/3

(vii) Capital expenditure to the extent of about Rs 43,000 has already been incurred, in connection with the manufacture of drugs and the present proposal is to purchase certain additional equipment at a cost of Rs 12,000/- It is stated that the additional equipment is absolutely necessary for the manufacture of certain drugs which are required by the Medical Department and for which there is demand in the local market. S/14/35.

(viii) Reference is invited to my note dated 2nd July 1934 in I. & C. File 233-33-8, in which I have stated that the transactions relating to the manufacture of drugs should be accounted for separately and the accounting procedure should be similar to that prescribed for other commercial concerns. Unless this proposal is given effect to, it is not possible to find out accurately the financial results of the working of the concern. As stated by me in the above note, the rates to be charged to the Medical Department should also be fixed so as to yield a

NOTE—Contn. Sheet.

a reasonable profit, keeping in view the market rates.

(26) In the absence of definite and accurate information as to the profits so far realised by the concern, we have to accept only the statement of the department that the concern is working at a profit. It appears desirable to call for the Pro-forma Profit and Loss Account and balance sheet of the concern for the year 1933-34, and also for the half year ending December 1934 before permitting further capital expenditure.

(27) The proposal to meet the capital expenditure from out of the "Soap Factory reserve" does not appear to be correct. I would suggest that the capital and revenue transactions of the above concern (excluding the transactions of the Industrial and testing laboratory which have to appear under the service head " 28. Industries and Commerce" as already noted in my previous note) may be booked under "39. Industrial Works" and "XXIX. Industrial Works" respectively, and the required additional grant may be obtained from the Legislative Council.

(28) Regarding the proposal to spend Rs 3,000/- per annum for two years from the Revenue Account of the Soap Factory for experiments, it is to be stated that this is not a proper charge to the revenue account of the soap factory and has to be charged to the service head "28. Industries and Commerce", and that the expenditure on account of such experiments should be as low as possible in the present financial condition.

U.O.No. Fl:184
22 JUL 1935

31.7.35.

File No. of 193 . General and Revenue Secretariat

35) From the Profit and Loss account for the half year ending 31st December 1934, it is observed that the concern has earned a profit of ~~Rsx2x9x6~~ Rs 2,106 during the above half year. This Account may be sent to the Comptroller for verification: Even assuming that the Account is correctly prepared it has to be pointed out that the figure of the profit earned (Rs 2,106) has been arrived at without making provision for depreciation charges and if they are also taken into account, the figure of the profit will practically be wiped out though Government have invested Rs 1.13 lakhs on the concern. The question of investment of additional capital (particularly large amounts) requires therefore to be examined with great care to avoid loss to Government. It is stated that the total market value of new medicines which can be manufactured with the appliances now proposed to be purchased at a cost of Rs 12,000 will be Rs 37,000.

36) Details as to the particulars of these new medicines which will have to be manufactured, the ~~xxxxxxx~~ quantity ~~xx~~ likely to be consumed by the Medical department, the value ~~xx~~ thereof as also the comparative market value etc., may be required to be furnished. (vide also Dev. Secretary's note dated 10th July 1935 in I.& C. 233-33-8). Without a definite prospect of the concern realising greater profits to cover at least interest and depreciation charges on the capital to be invested, the proposal will not be financially acceptable.

37) Expansion of the concern should also be gradual

and the capital expenditure should be limited only to the purchases as are considered absolutely and immediately necessary.

20/9

FINANCIAL SECRETARY'S O.O.No. Fl. 701 23 SEP. 1935 BANGALORE.

30/9/35

(93) The Finance department has noted on the file more than once. According to the revised procedure of accounting of the transactions of the Industrial and Testing Laboratory, the capital expenditure has to be charged to "39. Industrial and Testing Laboratory". There is a provision of Rs 11,000 under this head in the current year's budget, and the capital expenditure during the current year has to be limited to this amount, by giving preference to urgent items and postponing other less urgent items. All our cash resources have to be conserved in connection with the repayment of the Railway Sterling loan on 1st April 1936 and it is not desirable to permit extra grants involving cash outlay (either from the capital grants or from the Reserve funds).

2/10/35

1357

Expansion of the Industrial Testing Laboratory 15

General and Revenue Secretariat — File No. 102 of 1934 — [App. F. III—2

Serial No.

(44) The question of the rates to be charged by the Indian Store Department for its supplies to engineering departments is being separately worked up and submitted.

(45) In this case the capital expenditure of 12,000 will enable the factory to supply 50,000 lbs worth of medicines which Defence every year and also sell some quantities outside. The difference between the market rate & the cost of output will cover the capital cost in a few years. The expenditure may therefore be considered sanctioned.

Member

Dewan

DEVELOPMENT SECTION 1+c 2 NOV 1934

FROM

A. V. RAMANATHAN, ESQ., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore (India).

To

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

Rec'd 12/11

SIR,

The Industrial and Testing Laboratory - Further expansion in its activities.

(4864) H With reference to the last para of G. O. No. D. 1184-1236/I & C 233-33-8 dated the 17th August 1934, calling for detailed proposals for the development of pharmaceutical work in the Industrial and Testing Laboratory, I have the honor to invite your kind reference to the note prepared by Dr. Aswath Narain Rao on the subject in accordance with the instructions of the Dewan when he visited the Laboratory during July 1934. A copy of this note was sent to you direct by the Industrial Chemist in response to an immediate telephone message on the 5th July 1934. (6/11)

(a) It will be seen from this note that an additional equipment at a cost of Rs 12,000/- is required for undertaking new preparations for the Medical Department. Incidentally these are the preparations which also command good sales in the market. This equipment is in addition to the equipment of the value of Rs 5,975/- sanctioned by Government in their order No. D. 13-17/I & C 53-33 dated Camp Mysore, the 16th June 1934.

4782 (Ba-8m)

(b) A special grant of Rs 3,000/- is also asked for for two years in order to investigate the possibility of manufacturing new preparations No additional staff is proposed to be employed for the present except a few labourers to cope with the increase in operations resulting in the installation of the additional equipment. Most of the items of the equipment are proposed to be got manufactured in the Central Industrial workshop.

The Industrial Chemist has examined these proposals in detail with Dr. Aswath Narain Rao. They are of the unanimous opinion that the equipment mentioned in the note is absolutely necessary for the proposed expansion. They also report that unless extra building accommodation is also provided for side by side, there will be no sufficient space for the installation of the additional equipment. When the Dewan last inspected the Laboratory, he was pleased to request the Chief Conservator of Forests to hand over to the Laboratory the two rooms on either side of the stores room of the Laboratory, in the main building, in possession of the Forest Department. The Industrial Chemist states that the Laboratory will be able to push on its (c) scheme of expansion on the lines of Dr. Aswath Narain Rao's note in case these two rooms are handed over to it.

M Dr. Aswath Narain Rao has, in his note, furnished the detailed

S

detailed specifications of the several items of equipment included in the estimate of Rs 12,000/- and the purposes for which they are required. An additional capital grant of Rs 12,000/- is required to meet the cost of this equipment.

In regard to the special grant of Rs 3,000/-, this amount will be met from the revenue funds of the Soap Factory as in the case of all revenue expenditure on the Laboratory.

I recommend that the sanction of Government may kindly be accorded for an additional grant of Rs 12,000/- and to the conduct of the experiments on new products from the required funds of the Soap Factory.

The Chief Conservator of Forests may also be kindly requested to vacate the two rooms referred to, as personally instructed by the Dewan.

I have the honor to be,
Sir,
Your most obedient servant,

Director.

DEVELOPMENT

Dear Sir,

I am in receipt of your D.O. letter No. D.3603/ I & C 102-34-2 dated the 28th November 1934. As far as I remember the instructions of the Dewan were to vacate the two rooms now occupied by the Sandal Koti, as soon as a building is put up for storing sandalwood. Accordingly I have submitted Estimates for the construction of the building for storing sandalwood, to Government for sanction with my letter of even number dated the 3rd Oct 1934. Government Orders are awaited in the matter. As it is, there is a very large stock of prepared sandalwood in one of the rooms while the other is being used for preparing Bombay Billets. It is not possible to immediately vacate these rooms because there is no other place for storing sandalwood. These rooms will be made available as soon as the new building is put up.

Yours sincerely,

B.V. Ramaiengar

M. Venkatanaranappa, Esq., B.A.,
Secretary to Government,
Development Department,
Bangalore.

OFFICE OF THE DIRECTOR,

Dated Bangalore, 26th February 1935.

FROM

A. V. RAMANATHAN, ESQ., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore (India).

To

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Extension of the activities of the Government Industrial and Testing Laboratory.

******

With reference to your office D.O. Letter No.D.5640/I&C 102-34- dated 21st February 1935 enquiring in what stage the question of the vacation by the Forest Department of the two rooms on either side of the Laboratory now stands, I have the honor to state that I learn that the Chief Conservator of Forests has submitted estimates for putting up a big shed in order to shift sandalwood there and to vacate the two rooms in question. The First Member of Council inspected the Sandalkoti and the Industrial and Testing Laboratory on the 1st February 1935 in this connection. I request that final orders on the proposals of the Chief Conservator of Forests may be issued early and the Chief Conservator of Forests asked to vacate the two rooms early or at least to vacate one room at once, as the Industrial and Testing Laboratory is handicapped for lack of space.

I have the honor to be,
Sir,
Your most obedient servant,

Director.

Mr. S. Abdul Wajid, B.A.,
~~Mr. A. V. Ramanathan, B.A.,~~
Director.

OFFICE OF THE DIRECTOR,

Bangalore, dated....8th March 35.

My dear Venkatanaranappa,

I invite kind reference to my letter No. D2-76/34-35 dated 2-11-1934 in the matter of the Additional equipment at a cost of Rs.12,000/- needed for further expansion in the activities of the Industrial and Testing Laboratory.

It is necessary to order for this equipment early so that the equipment may be ready to facilitate the manufacture of new items of medicines etc. as soon as the extra building - accommodation needed is provided for. Further the addition of this new equipment would enable the Laboratory to supply a few more items to the Medical Department during 1935-36.

I therefore request you kindly to obtain and communicate to me very early sanction of Government for the purchase of the equipment at the cost of Rs.12,000/- referred to and also an extra grant to the extent in the current year's budget of the Department as proposed by me.

Yours sincerely
S. Abdul Wajid.

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department,
Bangalore.

SIR,

Further extension in the activities of the Industrial and Testing Laboratory.

With reference to correspondence ending with your letter No. D.7074/I&C.102-34 dated 26-4-1935 on the above subject, I have the honour to state that the Balance Sheet and the Profit and Loss Account of the Industrial and Testing Laboratory for the year ending 30-6-1934 were submitted to Government with this Office letter No. D2.420/33-34 dated 16-11-1934. Copies of the same are sent herewith for ready reference and kind return when done.

Balance sheets are now being prepared yearly under G.O.No. D.177-9/I&C.330-32-1 dated 12-7-1933. Copies of Balance Sheet and Profit and Loss Account got specially prepared for the half year ending 31st December 1934 are submitted herewith as desired.

I request that early sanction of Government may be kindly accorded for the purchase of equipment at the cost of Rs 12,000/- as per proposals submitted with correspondence ending with my D.O. letter dated 9-3-1935.

A provision of Rs 11,000/- has been made in the provisional Budget Estimates for 1935-36 as against Rs 12,000/- asked for under 39 Industrial and other Works. The amount sanctioned will be utilised for the purpose and proposals for the additional grant required will be submitted in due course during the ~~next~~ current official year.

I have the honour to be,
Sir,
Your most obedient servant,

S. Abdul Wajid.

I am also to add that the working of the concern having earned a profit of Rs 2106/- during the half year ended 31-12-34 requires investigation by the Comptroller to ascertain whether the account is correctly prepared taking into account the depreciation charges etc.

A very early reply in the matter is requested

Thanking you

Yours etc

Dear Sir,

Adverting to the correspondence ended your letter No. dated re: the further extension of the activities of the Industrial Policy Lab, Bloom I am directed to state that the Profit & Loss a/c for the half year ending 31-12-34 discloses a profit of Rs 2106 for that half year, but it has to be pointed out that these figures have to be verified by the Comptroller first and that assuming that the figures have been worked out correctly it is seen that the profit has been arrived at without making provision for Depn charges. If these are taken into a/c the profit will practically set itself-off. Govt have invested Rs 1.13 lakhs in the concern and on the above showing the working cannot be considered to be remunerative. There is no addl capital expn therefore required the closest scrutiny with a view to avoid further losses to Govt. It is stated that the market value of medicines that can be prepared with the proposed appliances will be Rs 37,000/- I am to request you to furnish to Govt details of these new medicines that will be manufactured the quantity likely to be consumed by the Govt Depts the value thereof & the corresponding market values. and such other particulars to show the financial results of the fresh investment proposed as may be necessary. An early reply is requested.

Yours etc

TO M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Government Industrial and Testing Laboratory - Purchase of additional equipment at a cost of Rs 12,000/-

With reference to your letter No. D. 786/I & C 102-34-7 dated the 8th August 1935 on the above subject, I have the honor to state that the above equipment is required for the development of the pharmaceutical activities of the Laboratory as stated in the note submitted in pursuance of the instructions of the Dewan to the Superintendent when he inspected it during July 1934. A copy of this note was submitted to you by the Industrial Chemist direct in response to an immediate telephone message on 5-7-1934.

The market value of the new medicines which could be manufactured after this equipment is installed is estimated at Rs.48,150/- according to the rates tendered in 1933-34 but it will be Rs.66687/- as per tender of 1934-35. A copy of his letter No.620 dated 27-8-1935 is submitted herewith.

In regard to the investment of Rs 1.13 Lakhs on the Laboratory referred to by you, I may state that a sum of Rs 50,655/- out of this investment represents fixed assets and the balance of 62,345/- is in the shape of raw materials, works-in-process, finished goods, and money due from the Medical Department who have since adjusted a major portion of the amount due by them.

As regards the observations that the profit shown in the Balance Sheet will practically get wiped out if depreciation is provided, I may state for your information that under the existing orders of Government, the Laboratory will be required to supply its preparations to the Medical Department at cost price (inclusive of overhead only). In case these preparations are assessed at their market value, the results of working will show an appreciable profit after providing for depreciation etc., (vide balance sheet prepared and submitted in two sets with this office letter No. D2-420/33-34 dated the 16th Novr. 1934). The Balance sheet for the year ended June 1935 which is under preparation will be shortly submitted to Government separately.

The Capital grant of Rs 11,000/- sanctioned for the Laboratory in the current year's Budget is only towards the normal capital expenditure on it during the year and as such no portion thereof can be diverted for the purchase of the equipment referred to above.

I therefore request the early sanction of Government for the additional grant of Rs 12,000/- required for the purchase of the further equipment referred to. In case this amount - cannot be found from the General Revenues of Government, it may kindly be sanctioned to be met from the General Reserve of the Government Soap Factory.

I have the honor to be,
Sir,
Your most obedient servant,

Director.

GOVERNMENT INDUSTRIAL & TESTING LABORATORY

28

620
35-36.

27th August 5.

To

The Director of Industries
and Commerce in Mysore,
Bangalore.

Sir,

With reference to your letter No.D2-76/34-35 dated the 16th August 1935, I have the honor to submit herewith the following details on the points raised by the Government. All the details have been submitted in my note on the development of the pharmaceutical section of the Government Industrial and Testing Laboratory sent with my letter No.1842 dated 19-6-1934.

It was submitted in my note that the market value of medicines which cannot be manufactured without the extra equipment asked for is Rs 37100/- and market value of medicines which can be better made with the equipment asked for is Rs 11050/- making a total of Rs 48150/-. This relates to the medicines purchased by the Government Medical Stores only. Very much more could be manufactured with this equipment depending entirely on the demand for these medicines from the public. These were the figures arrived at on the figures given in the old tender of the Medical

Medical Department and as per the 1935-36 tender, these figures have to be modified. Details are given below based on the Medical tender for 1935-36.

Market value of medicines which cannot be manufactured without this extra equipment		Rs 51025- 0- 0
Market value of medicines which can be manufactured with the extra equipment	...	" 15662- 8- 0
Total	...	Rs 66687- 8- 0

It is not possible for us to give our cost price of certain preparations without actually manufacturing them, but I can give my assurance that the price will on no account be higher than the market rates. The more we manufacture, the cheaper will be the medicines we manufacture on account of better distribution of overhead charges. For example although medicines of the value of about Rs 66687/- will be manufactured with this extra equipment, the increase in establishment charges will not go up more than by about Rs 1800/- a year so that the labour and supervision charges per lb. will work out at Rs 0-1-1 a lb. The total poundage works out to 25600. In other words, the value of the medicines we are at present manufacturing will also be reduced on account of this extra manufacture. Further, as explained in my above mentioned note, this equipement will be useful for manufacturing a number of other products and also for

for preparing extracts rather than tinctures for sale outside the State. This has not been included in the above figures; only the requirements of the Mysore Medical Department have been given. This would save us the extra duty we have to pay on products containing alcohol and exported to places outside Mysore.

It is stated in the letter from the Development Secretary that a sum of Rs 1.13 lakhs has been invested in the concern. But, ofthis, only Rs 50,655/- represent the investment on Fixed Assets while the rest is found in the form of raw materials, work-in-process, finished products and money due to us from our debtors. For the latter half, it is all in the shape of goods in the Laboratory. The balance sheet for 1934-35 which will also be submitted shortly will show a much more fa favourable position than was shown by the balance sheet as on 31-12-1934. If we increase our manufactures with the addition of this extra grant of Rs 12000/- asked for, the balance sheet will necessarily become more favourable still.

Further details have all been given in my note of 19-6-1934. Under these circumstances, I request that the sum of Rs 12000/- asked for may kindly be sanctioned early so that the necessary machinery may be ordered immediately in order to have it in time for erection when the Forest Department hands over

over to us the two rooms which are due.

I have the honor to be,
Sir,
Your most obedient servant,

Superintendent.

To

The Director of Industries
and Commerce in Mysore,
Bangalore.

Dear Sir,

With reference to the question of the allocation of the amount of Rs.11,000 sanctioned during the year 1935-36 for capital expenditure for the Laboratory, I submit below information required.

Out of this grant, Rs.1,230-8-0 have already been spent for meeting outstanding bills of last year. Towards item 10. in my letter No.2053 dated 30rd March 1935 viz. manufacture of accumulators, commitment to the extent of Rs.2,000 have already been entered into and the rest of the money will be utilized for purchasing equipments required for this investigation. The balance of Rs.7,770 is proposed to be utilized as given in the enclosed list. for equipment most urgently required, as some preparations cannot be manufactured without this immediate addition. So it is, since a part of the

P.t.o.

37

the present year's grant has been used for meeting bi[ll] of last year, [they] will be found insufficient. As soon the amount of [Rs.]1,[illegible] is sanctioned, the total amount of [Rs.]19,77[illegible] ([Rs.]1[illegible] [Rs.]7,77[illegible]) will be [illegible] utilised for [buy]ing as much of the equipment [asked] for as possible. In addition some show cases for exhibiting the products [of] the laboratory have also got to be made. This is [under] the instructions of the Development [illegible] Boards, [illegible] the products. Under these circumstances, I request that sanction for the capital grant of [Rs.]12,000 asked for may kindly be obtained immediately.

Yours sincerely,

K. Ramakrishna Rao

Superintendent.

Read:—

Government Order No. L1104-230/Ind 233-34-5 dated the 17/20th August 1934 sanctioning the continuance on a temporary basis of the establishment of the Government Industrial and Testing Laboratory and calling for detailed proposals for the development of the Pharmaceutical work of the Laboratory.

Correspondence ending with letter No. S2-70/34-35 dated 10th September 1935 from the Director of Industries and Commerce requesting sanction to an additional equipment grant of Rs.12000/- for the laboratory for undertaking new preparations required for the medical department and a special grant of Rs.2000/- a year for two years to investigate the possibility of manufacturing new preparations, the cost being met from the General Reserve and the revenue accounts of the Laboratory respectively and also requesting that the Chief Conservator of Forests may be instructed to vacate the two rooms on either side of the store room and the Laboratory in the possession of the Forest Department.

Order No. D3467-70/Ind 102-34-9

Bangalore, Bangalore, 25th November 1935

The Director requests sanction to an additional grant of Rs.12000/- for meeting the cost of equipment as detailed in the annexure and to meet the cost of conducting experiments on new products from the revenue accounts of the Laboratory. He says that the capital grant of Rs.11000/- provided under 39 Industrial and Testing Laboratory in the current year's budget is only to normal expenditure and that it is not possible to divert any of this provision for the purchase of additional equipment referred to above and suggests that if the additional sum of Rs.12000/- required for the new equipment cannot be made available from General Revenues it may be charged to the General Reserve of the Laboratory.

Government are pleased to sanction the proposal of the Director to purchase the equipment detailed in the Annexure the expenditure on this account during the current year being charged to and limited to the provision of Rs.11000/- made under 39 Industrial and Testing Laboratory in the current year's budget.

The suggestion of the Director to meet this amount from the General Reserve of the Soap Factory is not acceptable to Government.

Separate orders will issue on the question of the conduct of experiments on new products and of vesting the power in charge of the Forest Department.

Secretary to Government,
Development Department.
